WGBH - DCAMM SCRUM Report 6	
	4/8/21
Contact	<u>Github accounts:</u> elisa3lopes, rlee99, murtio, carmen-araujo, jenajjedu <u>Email addresses:</u> ● Jena Jordahl jenajj@bu.edu ● Elisa Cordeiro Lopes elisacl@bu.edu ● Richard Lee rlee99@bu.edu ● Murtadha Bahrani murtadha@bu.edu ● Carmen Sabrina Araujo sabrinaa@bu.edu
What have I worked on?	● Fixed a few extra bugs on parser. ● Tested parser on all different datasets we have available ● Conducted analysis to present to the client and answered all initial questions the client had at the beginning of the semester.
Have I talked to the client recently? When are we meeting with them next?	● We talked with the client on Wed 4/8/21 11:30-12:30pm. ● Client was extremely pleased with our progress and preliminary insight about the data. ● Next meeting is on 4/15/21.
What will I be working on next?	● Since we have finished the parser, we will now be answering some key questions about the data ● Some specific requests from the client: Finding which trade and companies are doing better in terms of diversifying their workforce. Creating more visualizations of our analyses. Writing up descriptions of our findings for each visualization (by month, year, trade, gender, ethnicity etc.)

Have I run into any issues? Do I need help?	- Making our parser run on different PDFs - Other than minor bugs and final adjustments to our parser, no major issues to report this week.
