Weekly Project SCRUM Report
Date:03/05/21
Project Name: Drift Diffusion Models of children's interactions in a Repeated Prisoner's Dilemma Game
Team Members: Team 1 Brendan Leap Andrew Coughlan Maha Alrashed Jessica Chen Abhishek Samal
Tasks Completed This Week: - To present current progress to the client. - To discuss future analysis plans with the PM and the client.
Plans for Next Week: - Meet within the team to make sure everyone is up to date with everything we know and have done so far. - Initial literature survey for implementing the drift diffusion model. - Instead of the mean of the features, average graph plots have to be made using the median of the features as discussed with the client.
Obstacles and Questions: - Still need to learn about implementation of a diffusion model. - Should we just focus on making a diffusion model till the end of the semester? Do we need to do anything else?
Met with the client recently? When is the next meeting with the client?: Met Peter and Jane on 03/05. Next client meeting on 03/19.
